

Data Analytics for Managers

Instructors: Richard Dunks and Julia Marden

Follow along at: <http://bit.ly/data-driven-gov>

See the code at: <http://bit.ly/data-driven-gov-code>

Key Questions for the Morning

- What is the value of data?
- What is analysis?
- What does it mean to be data-driven?

The Analytics Value Chain

- What are the key steps?

- What are the key things to keep in mind?

Problem Scoping

- **Ideate:** On your own, generate at least 3 ideas (ideally more), each on their own Post-It Note
- **Discuss:** Review the ideas generated
- **Decide:** Come to a consensus as a group

4 Concerns to Be Mindful Of

1. Technical

2. Legal

3. Cultural

4. Political

Key Benefits of Good Analysis

Key Questions for the Afternoon

- What is open data?
- What are the benefits of open data?
- What are some of the concerns with open data?
- What is exploratory data analysis? Why is it important?

- What is a data-driven culture?

- How do we create it in government?
